

8.6 Safety and suitability of premises, environment and equipment
Premises

BOW LANE PRE-SCHOOL

Recording of appropriate space requirements

Two year olds: 2.5 m per child (hall only)

Three to five year olds 2.3 m per child

Toilets

Bow Lane Pre-school has 4 toilets and 4 wash hand basins

Bow Lane measurements in the hall – 10x16 metres

Bow Lane Pre-school has 160 metres of space within the hall. Working the space requirement out for under three's at 2.5 M per child we can accommodate 64 children.

We aim to accommodate no more than 32 children. We are basing this on a quality interaction rather than quantity in numbers. Having 32 children will also give us the flexibility of allowing for children who need extra care or take up the wrap-a-round service.
